

Shin Tadashi

Senior Blockchain / Full-Stack Web Developer

I am a seasoned programmer with 8 years of industry experience and 2 years of experience in academia. These experiences provided me with an opportunity to develop an understanding of what good software is and how to make it. My main priority is to maintain high quality of code from day one. I use the best tools, processes, design patterns, Clean Code and SOLID principles of software development to ensure the best results for my clients. I am good at Mern/Mean Stack web developing, Smart-Contract and Minting websites. I also have rich experience in React-Native, PWA, Java, Scala, Ruby, Python, Vue.js, Three.js, D3.js, Express.js, Node.js, PHP, WordPress and C/C++.
